

SHE WILL BARE HER FOOT FOR BENEFIT OF JURY.

Old Is Asking \$25,000 Damages Because She Can't Dance or Bowl Any More.

What is the value of a woman's foot? This was the puzzling question with which a jury before Justice Platzeck in the Supreme Court had to wrestle today. Miss Alice Eisner, pretty and twenty-two years old, sued the American Offshoot Company for \$25,000 damages, claiming that while passing the concern's establishment at No. 282 Canal street a large roll of autotho toppled over and permanently injured her left foot.

"Prior to the accident," said Lawyer Don R. Almy, for Miss Eisner, "my client was an expert bowler and dancer. She has since become flat-footed, and her physician says she will never be able to dance or bowl again."

To show the extent of the injury to the young woman's foot, Mr. Almy said he would have her bare her foot to the Court and jury when she takes the witness stand.

Miss Eisner lives on the upper west side. She is employed by the Federal Finance Company, at No. 411 Broadway.

MORE HORSE CARS TO GO.

Dry Dock Company Wants to Use Storage Batteries Instead.

The Public Service Commission has received an application from the Dry Dock, East Broadway and Battery

Railroad Company for authority to use storage battery cars on its Avenue B and Canal street lines instead of horse cars. The application covers a route down Park Row to the Post-Office, although for some years past the company has not operated cars that far downtown. On the west side also the route specified extends as far as the Cortlandt street ferry.

This company is a part of the Third Avenue system, which is operated by Frederick W. Whitridge as receiver. The hearing will be held Oct. 12 by Commissioner Cram.

Against the Coming of Jack Frost Are Arrayed Full Stocks of Gimbel KNIT UNDERWEAR In Fine Assortment for All the Family

Ready, at the first advance of colder weather, with the warm Underwear that every man, woman and child in New York will need at once.

Profiting by a full year's experience, and fortified by a far better knowledge of New Yorkers' needs and preferences, we are splendidly prepared for the new season, with larger and finer assortments of the desirable kinds of Underwear, an improved selling force, and with more space devoted to the display.

Somewhat more than FIVE HUNDRED distinct kinds and styles of Knit Underwear are here; embracing the product of every noted maker at home and abroad, and providing a variety that is bound to meet every preference.

We have no royal road to exclusive styles—good Underwear is made nowadays in proper proportions, reinforced where necessary, and appropriately trimmed. It is simply a question of going to the makers who do these things best; and that our experience has enabled us to do unflinchingly.

Furthermore, our large purchases—for our three great stores bring their combined buying power to bear directly on the factory—have made prices the lowest that you will discover anywhere for equal quality.

In this International Congress are the superb silk Undergarments from George Brett & Sons, and the famous wool Underwear from Allen Solly & Co. Other English makers represented are Cartwright & Warner, and I. & R. Morley.

From Germany come the excellently made all-wool and wool-and-cotton Garments from Conrad & Friedman, and the Stuttgarter Underwear for men, women and children.

From Paris delightfully comfortable balbriggan and all-wool Underwear made by McChaffee & Co.

A large special section is devoted to the various styles of Swiss Underwear for women, in cotton, merino, all-wool, silk-and-wool and all-silk, from the best makers of these admirably fitting garments.

Our own good American manufacturers are liberally included—the well-known makes of Norfolk & New Brunswick, Root's and American Hosiery Co., for men, women and children, the Glastenbury for men, the Dalby & Mills for women and children,

and the Harvard Mills for women and children, are here in full assortment.

An instance of the completeness of the stock is found in our provision for stout men, who can obtain their size, up to 50, in no less than ten styles of Underwear in Fall and Winter weights, or balbriggan, for all-the-year-round wear. Here are the price-ranges:

Think of a Hornless VICTOR-VICTROLA For Only \$15

It is apparent, from the instant clamor for the new Victrola IV., that thousands of music-loving people have been waiting for a Victor Talking Machine, of the hornless type, at a price within their means.

Our entire supply—in fact, the whole visible supply in New York—disappeared in a few hours. We now are glad to announce that we now have

Plenty of the Victrola IV. at \$15 upon which we shall repeat our liberal terms of \$1 Cash and \$1 Weekly

The wonderful machine will be delivered to your home on the first payment of \$1 and proper references. We have also received a number of the

Victrola IX. at \$50

in mahogany or golden or weather oak, on the same easy terms of \$1 cash and \$1 weekly. Come and hear these Machines play in our Talking Machine Rooms on the Fourth Floor.

"Domestic" Sewing Machines, \$20

The Domestic Sewing Machine Company shipped us 370 Machines to sell at the special price of \$22. We discovered that they were equipped with wooden instead of steel pitmans (the connecting rod between the treadle and the fly-wheel). While wooden pitmans give thoroughly satisfactory service, and are used on many good machines today, they were not according, in this case, to our specifications; so we prefer to sell these 370 Machines at even a still lower price than we intended, to close them out quickly.

So they will be \$20 each tomorrow, and a better Sewing Machine offering was never made. The Machines are splendidly made, new and perfect, in a handsome new style of golden oak case, and the mechanical part is identical with the 1911

"Domestic" model without the looper. Full set of attachments. We will sell them on our usual easy terms of

Boys' & Girls' "Educator" Shoes, Half-Price

These six words tell of one of the best offerings of good shoes ever presented to the boys and girls of New York.

"Educator" Shoes, as the name implies, are built on educational lines, on "true-to-nature" lasts, singular to the styles we have always sold and always will sell, because they give absolute comfort, and properly support and protect the boys' and girls' growing feet.

Such shoes are invaluable at almost any price, especially when they are honestly made of carefully selected wear-resisting leathers.

Now you may select these famous "Educator" Shoes at exactly one-half the established prices, namely:

\$1.50 "Educator" Shoes, Sizes 2 to 8, at 75c
\$2.00 "Educator" Shoes, Sizes 8½ to 12, \$1.00

Note the Wide Toe "True to Nature"

Misses' "Educators" at \$1 pair

We purchased 10,000 pairs of "Educator" Shoes for boys and girls, including the maker's discontinued lines. To unload his entire holdings to one house, big enough to dispose of the entire collection in a short time, the manufacturer cut his prices far below the cost of production. This is why we can offer the celebrated "Educator" Shoes at half price.

Black and tan shoes in the great collection, in many styles; among them calfskin lace shoes, patent leather lace shoes, kid skin button and lace shoes.

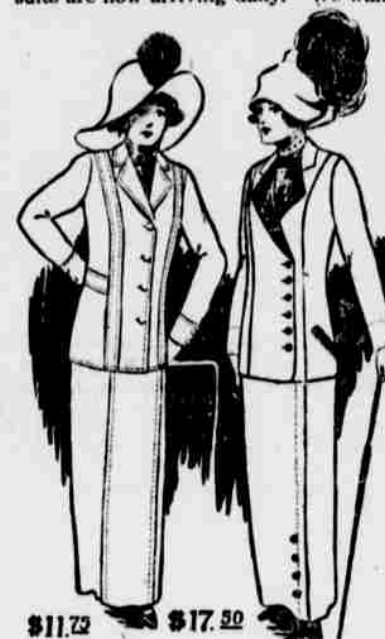

THE SALE OF MEN'S AND WOMEN'S SHOES CONTINUES with particularly good assortments, at \$2.35 for men, and \$1.95 for women.
